

# **The Impact of COVID-19 on Entering Students in Community Colleges**

## **Methodology Supplement**

### **Table of Contents**

Introduction	2
Methods	2
<i>SENSE</i> COVID-19 data	4

## Introduction

Due to the COVID-19 pandemic, most college students began the fall semester of 2020 attending classes remotely rather than in person. For those whose classes did meet in person, the experience was undoubtedly different from pre-pandemic experiences. To gain insights into the impact of the pandemic on entering community college students, the Center for Community College Student Engagement (Center) added a special-focus module consisting of 12 items to the 2020 administration of the Survey of Entering Student Engagement (*SENSE*), a survey that asks entering students about their earliest experiences in college.

This methods supplement describes the data source used for the report, the data cleaning and recoding, and the analyses conducted. Analyses presented in the report as well as all other analyses reviewed in the preparation of the report are included in this document. If you have questions about the analyses or results in the report or this supplement, please contact the Center research team at [data@cccse.org](mailto:data@cccse.org).

## METHODS

### Data Source

The data used come from the main *SENSE* survey and the COVID-19 special-focus module that was administered with the main survey. The special-focus module was administered to 5,193 entering students across 38 colleges; 32 of the colleges administered the survey online and six administered the survey in person in the classroom.

Several of the special-focus module items include responses that students could select to indicate that the item did not necessarily apply to them. For example, Item 8 asks “Since the beginning of this academic term at this college, have you had trouble completing homework and other assignments because you do not have adequate care for your children or other dependents?” The third response option is “I do not have children or other dependents.” Individuals who selected this option were coded as missing for the analyses since the item did not apply to them. Other items and corresponding response options that were recoded to missing include

- Item 9: “Since the beginning of this academic term at this college, I have tried to avoid situations on campus in which I am unable to stay six feet away from another person.” The last response option is “Not applicable because I have not been on campus at this college this academic term.” Additionally, this response option was not included on the paper version of the item set as students had to have been on campus to complete the survey.
- Item 10: “Are you able to access the Internet at your home when you need it for your coursework at this college?” The last response option is “My coursework at this college does not require me to work online.”

- Item 11: “When your coursework at this college requires you to work online, which device do you primarily use?” The last response option is “My coursework at this college does not require me to work online.”
- Item 12: “If you are taking any online courses this academic term at this college, how are they delivered?” The last response option is “I am not taking online courses this academic term at this college.”

Other variables that were recoded for the analysis were

- Item 1: “Did you change your plans about attending college as result of the COVID-19 pandemic?” The first two responses referenced attending a 4-year in-state or 4-year out-of-state college or university; these responses were combined into one response.
- Item 3: “Did you change your plans about your program, major, or pathway of study as a result of the COVID-19 pandemic?” The last response option is “I have not decided on a program, major, or pathway of study.” This response was recoded to missing.
- Item 5: “How would you describe your household’s current financial situation?” Item 4 asked about the respondent’s current personal financial situation. The first response option to Item 5 is “I am the only member of my household.” Because the previous question asked about personal financial situation, this response was coded as missing.
- Item 12: “If you are taking any online courses this academic term at this college, how are they delivered?” The final response option “I am not taking online courses this academic term at this college” was recoded to missing.

Three variables were created from three items on the main survey. These new variables were created by the following combinations:

- Mar\_W\_CHILD: Cross between marital status (MARSTAT) and “Do you have children who live with you and depend on you for their care?” (CHILDREN).
- SEX\_W\_CHILD: Cross between sex (SEX) and CHILDREN.
- MARRIED\_SEX: Cross between MARSTAT and SEX.

One final note on the analysis of Item 9: “Since the beginning of this academic term at this college, I have tried to avoid situations on campus in which I am unable to stay six feet away from another person.” The last response option is “Not applicable because I have not been on campus at this college this academic term.” The results included in the report were limited to students who completed the survey in the classroom.

## **ANALYSES**

Univariate frequencies and bivariate crosstabs were used for all analyses presented in the report and in this supplement.

Thinking about THIS SEMESTER/QUARTER, how would you describe your enrollment at this college?				
enrlment	Frequency	Percent	Cumulative Frequency	Cumulative Percent
Part-Time	1441	27.75	1441	27.75
Full-Time	3752	72.25	5193	100.00

Mark your age group				
agenew	Frequency	Percent	Cumulative Frequency	Cumulative Percent
18 to 19	3576	69.09	3576	69.09
20 to 21	391	7.55	3967	76.64
22 to 24	274	5.29	4241	81.94
25 to 29	349	6.74	4590	88.68
30 to 39	354	6.84	4944	95.52
40 to 49	152	2.94	5096	98.45
50 to 64	70	1.35	5166	99.81
65+	10	0.19	5176	100.00
Frequency Missing = 17				

Traditional Age vs. Non-Traditional Age				
studage	Frequency	Percent	Cumulative Frequency	Cumulative Percent
Traditional-Age	4241	81.94	4241	81.94
Nontraditional-Age	935	18.06	5176	100.00
